All In 1 Hooper

ALL-IN-1 HOOPING DEVICE With Leveler Pro System

Save SPACE, TIME and MONEY. The ALL IN ONE HOOPER is designed to hoop all garments. It has four different hooping board sizes: ADULTS, JUNIORS, TODDLERS-INFANTS, and a SLEEVE board for sleeves and other hard to hoop garments such as stockings, pockets, cuffs, pant legs, odd size bags, cap backs and sides, ties and much more. The first three boards collapse independently as needed while the sleeve board folds forward for easy hooping of garments. Also Included are brackets that extend from the ADULT board for the hooping of extra large garments. The device has holes over 95% of the board so that virtually any location of the garment can be hooped.
