# SUCCESS THROUGH VISIONARY IDEAS.

“The distinctive Profine approach rests on attention to quality, innovative strength, customer led production and service, efficient processes and an awareness of our responsibilities. Striving for all-round excellence is what drives us, day in day out. Our skilled and highly motivated employees are the foundation of our success – as are the close partnerships we maintain with our customers.”

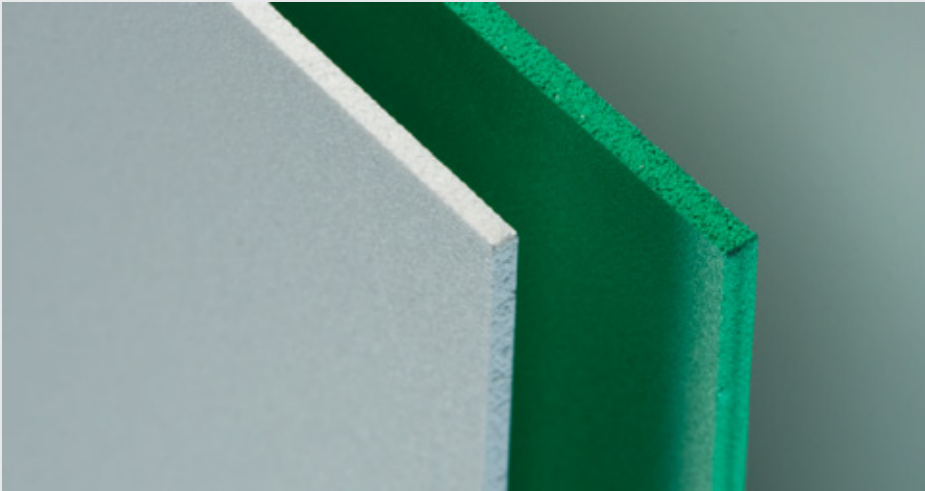

**Dr. Peter Mrosik, owner and CEO**

# KOMATEX<sup>®</sup>

KomaTex<sup>®</sup> free-foam PVC sheets exhibit a highly regular, fine-celled foam structure and a good surface strength. The closed, matte, fine-textured surface presents an excellent substrate for printing, painting, and laminating.

Komatex<sup>®</sup> is the perfect material for realizing creative ideas. It's excellent properties offers the best condition for great design potential.

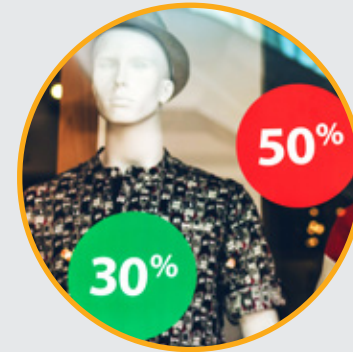

The multiflexible free skinfoam sheet advertising and design.

## Advertising Sector Applications:

- Signs / Banners
- Exhibition Stands
- Inscription Panels
- Showrooms
- Displays
- Direct Digital Printing
- Shop Window Decorations
- Photo Laminations

# KOMALITE®

KomaLite® has been developed specifically for the needs of the printing industry. The finely textured surface and the options of both white and black present the perfect base for an excellent printed image on both sides.

Whether series or custom production, punching, trimming, sawing, or cutting: the combination of fine-celled structure and highly stabilising makeup makes KomaLite® a durable, yet lightweight material.

KomaLite: Our recommendation for the best printing results.

## Product Highlights:

- > Excellent printing qualities
- > Lightweight
- > 100% recyclable
- > Ideal for punching work
- > Very good for bonding

# KOMACEL®

KomaCel® integral skinfoam sheets combine a strong, solid cover sheet and a celled core of the same material. This perfect balance makes KomaCel® a great material for many applications.

Compared with other products, these sheets exhibit an extremely low thermal conductivity and good sound insulation values. Besides its weather and flame resistance, KomaCel® can also be processed with ease thanks to its unique structure.

## Applications:

- Vehicle Fittings
- Outdoor Signage
- Exhibition Stands
- Cladding
- Door and Window Elements
- Cabinetry

We offer 3 different surfaces making KomaCel a material suitable for a great many applications.

# MARINE BOARD

We offer product solutions with exceptional performance characteristics, particularly for the marine industry.

## **KOMATEX<sup>®</sup>** **MARINE GRADE**

KomaTex<sup>®</sup> Marine Grade is our free foam PVC sheet developed for marine upholstery applications with a matte finish. Additional applications include: interior wood replacement, paneling for cabinets and drawers, overheads, and other structural components.

## **KOMATEX<sup>®</sup>** **PLUS MARINE GRADE**

KomaTex<sup>®</sup> Plus Marine Grade is our free foam lamination grade PVC sheet with an abraded finish. It is ideal for coring applications and compatible with epoxies, polyesters, or polyurethane resins. Other applications include: wood replacement paneling, boat deck coring and replacement, backing plates, transom replacement, and transom construction.

## **KOMACEL<sup>®</sup>** **MARINE GRADE**

KomaCel<sup>®</sup> Marine Grade is our integral skin foam PVC sheet developed to feature a high flexural strength, impact resistance, and weight reduction. Featuring a gloss finish, it is perfect for exterior paneling for cabinets, drawers, overheads, and other structural components.

## **KOMACEL<sup>®</sup>** **PLUS MARINE GRADE**

KomaCel<sup>®</sup> Plus Marine Grade is our lamination grade integral skin foam PVC sheet developed to feature a high flexural strength, impact resistance, and weight reduction. KomaCel<sup>®</sup> Plus Marine Grade features an abraded finish that is ideal for coring applications and compatible with epoxies, polyesters, or polyurethane resins. Other applications include wood replacement paneling, boat deck coring, backing plates, transom replacement, and transom construction.

BUILDING PRODUCTS

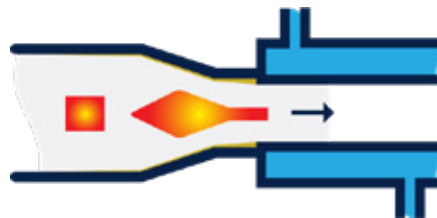

# THE MATERIAL MEANT TO LAST A LIFETIME.

CELUKA by KOMA Building Products is the hardest pre-finished building product in the market. It's matte finish looks, feels and works just like wood, but will not dent, ding, swell or rot even under the harshest conditions. Our material outperforms all free foam PVC and is considered a premium product in the building industry.

CELUKA is durable, workable and economical - lasting a lifetime.

## Quality PVC Trim made with Celuka Technology

CELUKA is cut with a precision die and bathed in temperature controlled water for exact thickness and unbelievable durability.

For more information visit [komabuildingproducts.com](http://komabuildingproducts.com)

# THE MOST COST-EFFECTIVE PVC TRIM AND MOULDINGS

Our Razor PVC Trim and Mouldings are virtually maintenance free and complement all exterior cladding materials, including vinyl, wood, stucco, fiber cement, and brick.

Razor products are preferred by installers due to their lightweight and durable nature and can be installed using ordinary woodworking tools.

## Product Highlights:

- Easy to install with standard tools
- Water resistant
- Bug and insect resistant
- Rot and mold resistant

TODAY FOR TOMORROW

# A COMMITTED APPROACH TO SUSTAINABILITY.

We are committed to developing the newest generations of products with the use of less material, while also improving technical properties. With our recycling program, we have set a benchmark for intelligent material cycles helping to secure a prosperous future for generations to come. Our products and manufacturing methods are designed to protect the oceans and the environment.

Environmental protection and sustainability is an integral part of our daily operations – and this starts at the very beginning by using only the finest raw materials. From an environmental perspective, vinyl can be recycled up to eight times. With a typical lifespan of 25 years, that equates to a 200-year product life cycle.

We take sustainability, the environment and social responsibility just as seriously as you do.
