

EasyPatterns® Plus

EasyPatterns® Plus is Siser®'s ColorPrint Easy digital HTV pre-printed with edge-to-edge designs and also pre-masked with TTD Easy Mask.

Unlike the previous iteration, *EasyPatterns* Plus does not require a masking step. Simply cut designs mirrored carrier-side down just like any other HTV, weed away the excess material, and you're ready to apply!

EasyPatterns Plus is a great way to achieve multi-colored designs with just a single piece of HTV. However, it is not recommended to layer additional HTV on top, as *EasyPatterns* Plus should be used as a top layer only.

EasyPatterns Plus is CPSIA certified.
