## ProChem AD 606

**Abrader/Degreaser/Dehazer**

### General Description

AD 606 is a viscous dehazer that is designed for a variety of inks. This product cleans mesh of stains with less noticeable odor and works better than most paste stain removers.

Refer to the Material Safety Data Sheet for safety and handling practices.

### ADVANTAGES

- Biodegradable - Drain acceptable to a treatment plant, after soil release, when used as directed.
- Lower inhalation hazard when used in confined area.
- Contains low volatile organic compounds.

#### Quick Tip:

Always pressure wash screen from the bottom and work upwards.

This will prevent ink from locking back onto the mesh when coming in contact with the rinse water.

1. Apply AD 606 on both sides of screen.

2. Scrub screen with non-abrasive pad or brush.

3. High pressure rinse - starting at bottom. Reverse the screen and high pressure rinse.

### Available in:

**4 x 1 quart**

**5 gallon**
