TRANSFER TAPES AND PROTECTIVE FILMS

## GXF100 Clear Transfer Tape

### Features & Benefits:

- See-through film allows precise registration.
- Static free for transfer ease.
- Medium tack adhesion level.
- Minimal errors in applying graphics.
- Superior liner adhesion to lay and stay flat.
- No adhesive residue left behind.

**PreView Plus™**

### GXF100 Clear Transfer Tape

**PreView Plus™** applications films feature exceptional clarity for easy registration of multiple colors or layers. Utilizing a rigid film stock, **PreView Plus™** lays flat for trouble-free storage and shipping. Plus, there is no static or tunneling. When it comes to storage of taped vinyl, **PreView Plus™** exhibits little to no adhesion growth and the unique surface finish accepts pen or pencil - allowing for marking lines, registration marks and notes.

Main Tape manufactures a full line of products specifically designed for positioning and protecting graphics and prints. We are fully committed to our products and will train your staff on the features, benefits, trends and product applications. The results are nothing short of perfection.

## GRAPHICS

### GXF 100 PreView Plus™

##### Performance

Adhesion (oz/in) to Stainless Steel	3.0 - 6.0
--	-----------

The physical properties listed above are typical values and are not to be considered as specifications. Our suggestions for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their internal use. Main Tape assumes no liability for claims beyond those outlined within our Limited Warranty, which includes replacement value of Main Tape product proven defective. For full disclosure of the Limited Warranty, please contact your Main Tape representative.

**Typical Uses** – Excellent for transferring self adhesive signs, logos and vinyl lettering produced from cast or calendared CAD/CAM plotter films with matte or brilliant surfaces. Laminates smoothly to graphics with no film distortion and resists stretching during installation.
